## IMPORTANT INFORMATION

Wheelyboats are self-operated wheelchair accessible day-boats and are available to hire for the full or part day. (The Bristol Sailability and Haven Banks Wheelyboats have a helmsman provided). The numbers in brackets refer to maximum occupancy. For self-operated Wheelyboats, boating experience is useful but not essential—the venue will provide instruction on the boat's safe operation and handling. Lifejackets are provided. An adult must be in charge at all times. While Wheelyboats can be used independently by disabled people, some venues may require an able-bodied companion. If possible, please book 24 hours in advance but a phone call may establish the boat's immediate availability. A charge may be made for the boat's hire.
